# Are you Worried about Water Borne Diseases in order to maintain Clean water Tanks your problem ends at .....

## LIFE LINE SERVICES

To  
Dear Customer,

We are Presenting ourselves as a **Life Line Services**. We are glad to be introduced ourselves as a reknowned and leading organisation in a cleaning of overhead water tanks and underground water chambers. Like blood to human body, without water nobody survive. Mostly people are cleaning their building water tanks manually but it is not by modern scientific process. We do such cleaning by scientific manner with modern machineries and give you best results.

Most of the impurities such as rust, sand, plants, weeds, algae or organic matter often settle down in this water tanks below the **Outlet level**. Water in this portion of the tank is usually stagnant and never used . This in turn provides a breeding ground for harmful virus, bacteria , cysts, and other micro-organisms.

The sidewalls of the water tank due to continuous dampness develop moss and other fungal growth. All these, if left unattended for a long time, can be health hazard for people consuming this water. In manually cleaning they don't Scrub inner a portion of water tank properly and don't remove, fungus, moss, debris from the tanks.

We have developed latest modern scientific process and modern processor that can give you satisfaction and hazard free health.

*Your Health, our purpose;  
Yours happiness, our mission !*

### PROCESS OF WATER TANK CLEANING

- 💧 Step 1 Dewatering of Tank
- 💧 Step 2 Removal of Sludge & Muddy water from Tank.
- 💧 Step 3 High pressure Water Jetting with anti bacterial treatment
- 💧 Step 4 Vacuum Drying of the Tank.
- 💧 Step 5 Ultra Violet rays for disinfection of tank

**YOU SAVE YOUR VALUABLE TIME & MONEY**  
The right process = ↑ Quality + ↓ Cost = Profit ✓
